SIXTEENTH REPORT
OF THE
GENERAL PRISONS BOARD, IRELAND.

TO HIS EXCELLENCY ROBERT OFFLEY ASHBURTON
MILNES, BARON HOUGHTON,

LORD LIEUTENANT GENERAL AND GENERAL GOVERNOR OF IRELAND.

General Prisons Board,
Dublin Castle,
August, 1894.

MAY IT PLEASE YOUR EXCELLENCY,

1. We have the honour, pursuant to statute, to present this <sup>40 & 41 Vic.,
cap. 49, sec. 15.</sup> our Sixteenth Annual Report on the condition of the prisons and prisoners within our jurisdiction, and in respect to the registration of habitual criminals, during the year ended 31st March, 1894.

I.—LOCAL PRISONS.

2. Downpatrick Prison, which has been held as a Convict <sup>Closing of
Prisons.</sup> Prison since 1884, has now been finally closed by an Order of your Excellency, dated 9th March last, as the Board had no further use for the prison.

3. In the Appendix at Table XX. are shown details of the chief works of reconstruction and repairs accomplished during the year.

4. The works referred to in our last three Reports in connexion with the enlargement of Belfast Prison were commenced on 1st March, 1894, as the legal difficulties were at last over- ^{Belfast Prison.}

come. The ground was formally handed over to the Prisons Board at the close of last December, and as soon as possible a contract was taken for the erection of a wall around the newly acquired ground. This work is now advancing to completion, so that the Board hope to commence the new Male Hospital as soon as the necessary preparations are made, such as the removal of the present stone sheds, &c., &c.

5. The accommodation in this prison has been fairly sufficient during the year to meet the necessities of the district, as it has only been necessary to remove from it to other prisons about thirty prisoners during the current year, for whose accommodation there was ample room elsewhere.

Commitments. 6. The commitments of all classes of local prisoners have still further decreased during 1893-94 by 182 as compared with the previous year, but there has been a slight increase of nine convicts committed this year, which may be accounted for by the reduction to three years of the minimum period of penal servitude under the Act 54 and 55 Vic., cap. 69 (Penal Servitude Act of 1891).

Expenditure. 7. Notwithstanding the reduction of the total number of commitments this year as compared with last, the daily average numbers in custody are higher for the year 1893-94 as compared with the previous year. Yet we are pleased to be able to report a reduction in the entire cost of our prisons this year by over £3,000 as compared with last, which we attribute to a closer supervision and scrutiny of the expenditure in every department.

8. Comparing the expenditure on prisons each year of the past sixteen years, since the Board have had charge of them, with the expenditure of the year 1877, it is estimated that a total reduction of £277,694 has been effected during that period.

This diminution of expenditure may be somewhat attributed to the reduction in the numbers in custody during some of the intervening years as shown by one of the tables in the following pages.

Punishment. 9. We observed in our Report of last year that owing to the class of prisoners that mostly frequent our gaols we did not think it likely that the number punished for prison offences would vary very much from year to year, but we are pleased to be able to report that this year the conduct of the prisoners in custody may be regarded as having improved when compared with the preceding year, for in the local prisons 677 fewer individuals have been punished for breach of prison rules, and the prison offences have diminished by 1,783.

10. We have no fresh circumstances to record this year on the subject of the education afforded to the prisoners. Particulars will be found at Tables VI. and VII. Secular instruction.

11. Considering that ninety per cent. of the local prisoners are committed for such short periods that they cannot be sent to school, there is not much hope of imparting any extent of literary knowledge to those committed, but we find that where the chaplains take an interest in the prison schools—and we are glad to observe that several of them do so—much benefit to the prisoners is effected.

12. We have again to express our regret that many of the prisoners committed by the magistrates for very short sentences are old offenders. We have in previous reports pointed out the evil results, expense to the public, and inutilty of such sentences. Short sentences.

To send prisoners to gaol for 24 hours, or perhaps 3 days, who have been 200 or 300 times in prison before, amounts simply to a delusion. All these prisoners must be washed and cleansed, and probably sent to hospital, from the effects of drink, to be there cared for and attended to, and rendered physically fit for re-indulgence in crime after a short rest in gaol.

13. In the Appendix, Tables XIV. to XVI., will be found the details in connection with the commitment of juveniles. The total number of this class of prisoners committed last year has decreased by 82, though the number of females of the same class has increased by 4. Juveniles.

14. We take leave again to remark on the working of the Probation of First Offenders Act, for although the attention of the local authorities has been directed to it, yet in the course of the year we have observed several cases, some of which are here- First offenders.

under referred to, where, as far as we have been able to ascertain by inquiry, this Act might have been applied to the advantage of the prisoners.

16. We annex hereto the usual tables dealing with prisoners confined in Bridewells, by which it will be seen that the decrease in numbers remarked on in previous reports still continues. Numbers in Bridewells.

17. In Table XXI. of the Appendix will be found the particulars of industrial labour carried on in our prisons. The net profits on such labour was £3,325 17s. 4d. It will be seen that there is this year a reduction of £31 in the profits as compared with 1892-93, principally due to a reduction of the profits on manufactured articles, and to the loss on the slaughter of pigs at Mountjoy Prison owing to disease, also to a more careful scrutiny of the rates charged for manufactured articles. The amount realized as "Extra Receipts" was £308 8s. 5d. The decrease in "Extra Receipts" is due to the fact that in 1892-93 there was sold a larger quantity than usual of old stores which had been permitted to accumulate from previous years. Prison Industries.

18. The bakeries established in the prisons, both at Mountjoy and Cork, continue to work satisfactorily, and a considerable saving is effected over the contract prices of bread if locally obtained, besides which the article produced in prison is free from any impurity, and of a most wholesome and excellent description. Bakeries.

19. The furniture and improved uniform dress granted last year to the female officers have added considerably to their comfort and contentment, which ultimately must reflect beneficially on the service, and tend to ensure a high standard of efficiency amongst the female staff. Female officers.

20. We append a return of the visits of the Visiting Committees to their respective prisons, and beg again to bear testimony to the valuable services rendered by these gentlemen to the Board and the public. Visiting Committees.

Many of these Committees give much time and attention to prison matters, and their remarks are carefully dealt with, and attended to by the Board.

Prisoners' Aid Societies.

21. We regret that we cannot report any addition to the number of Prisoners' Aid Societies already existing.

22. The Treasury still continue to grant £50 a year to the Dublin Roman Catholic Female Prisoners' Aid Society, with whom the Board have had a correspondence as to the extension of their work amongst a class of discharged prisoners who unfortunately at present appear to be utterly neglected, inasmuch as they are considered by the Society to be, practically speaking, beyond redemption, it being the opinion of the Society that the money can be better spent in the reformation of younger women who have been convicted of minor offences.

23. The Board are happy to be able to report that they have

during the past year had very satisfactory evidence of the good resulting from the moneys at their disposal for the purpose of benefiting prisoners on their discharge. In several instances in which they have been able to give prisoners a fresh start, away from the surroundings and temptations of their past evil life, the Board have had letters from some of these prisoners showing most satisfactory results.

24. The average daily number of prisoners in the local prisons during the year was 2,436; the number of deaths, excluding two executions, was 13, a death rate of 5.33 per thousand on the daily average number in custody. The death rate per thousand for the estimated population of the whole of Ireland during the same period was 18.8.

25. Subjoined is a table of mortality among prisoners for each year during the last fifteen years:—

YEAR.	Daily Average Number of Prisoners.	No. of Deaths.	Rate per Thousand.	YEAR.	Daily Average Number of Prisoners.	No. of Deaths.	Rate per Thousand.
1882-3.	2,426	10	5.33	1885-6.	2,891	10	3.64
1883-4.	2,321	11	4.74	1886-7.	2,373	10	3.98

1889-90.	2,043	9	4.40				

26. The causes of the thirteen deaths will be found in the Appendix, Table XI. Eight were the result of diseases which originated before reception into prison, and seven of these succumbed within twelve days of committal.

27. There was only one case of typhoid fever; the disease was incubating when the prisoner was admitted. There was also one case of typhus; the prisoner was suffering from it when admitted. The general health of the prisoners has been good.

28. The number released on medical grounds has been 60, a decrease of 12 as compared with last year. The 60 include 30 cases of women who were very near their confinement, and of the remaining 30 there were 23 cases of disease which were reported as having originated before reception.

Insanity.

29. The number of cases of insanity transferred from local prisons to asylums was 93; almost the same number as last year. Of these 82 were insane on admission, while the mental condition of another was described as "not good"; one was mentally disabled through total deafness rather than imbecility, one was sane while in prison, but found to have been insane when he committed the crime, and 8 developed insanity during the term of their imprisonment.

II.—CONVICT PRISONS.

30. The accommodation of the three Convict Prisons of Mountjoy, Maryboro', and Grangegorman remains the same as it was last year, and has been found ample and sufficient for the numbers in custody. There has been a slight increase of ten male convicts committed during the year and a decrease of one in the number of females.

New buildings.

31. It will be seen on reference to Table XXXV. in the Appendix that the principal works of reconstruction and new buildings consist in the erection on the Cowley Place property of twenty-three new Warders' cottages which forms the principal outdoor associated labour for advanced class prisoners.

32. At Maryboro' Prison the Intermediate Class is chiefly employed in similar work, and we have also sent a party of convicts to Cork Male Prison to effect large alterations in that Prison, by which means a considerable saving will result in the completion of these works for which a reasonable contract could not be locally obtained.

33. The improvements referred to in our last report in reference to the reception department in Grangegorman Prison, and also that in connection with the Female Officers' Quarters, are now working most satisfactorily, and add considerably to the cleanliness and regularity of the Prison and the comfort of the Prison officers.

34. In Table XXXVI. of the Appendix will be found the details of the earnings of the convicts during the year.

Convicts in custody.

35. The number of convicts in custody on 31st March, 1894, WAS:—

	Male.	Female.	Total.

Revocation of
Licences.

38. The Revocations and Forfeitures of Licences in Ireland during the year ended 31st March, 1894, were as follow:—

—	Males.	Females.	Total.
Forfeited or revoked for breach of conditions of Licence,	4	—	4
Forfeited or revoked in consequence of a conviction for other offences,	17	1	18
Gross Total,	21*	1	22

* In addition to this number there were 365 convicts under detention in the county prisons, and several hundreds in Bermuda and Gibraltar, who were subsequently discharged in Ireland.

40. In the convict prisons there were three deaths, a small number considering that many enter penal servitude with constitutions injured by their previous habits. Health.

41. There was no case of either typhus or typhoid fever in any of the convict prisons.

42. Four convicts were released on medical grounds, and eight were removed as insane to the Criminal Lunatic Asylum.

43. The Refuge Class for female convicts established in Grangegorman Prison works well, but is very small, numbering only eight at the end of the year. Refuge Class.

44. In our last report we referred to the revision of the Convict Prison Rules and Dietaries. The Rules have now been assimilated as far as possible to those in use in England, and some alterations inserted by order of the Chief Secretary. After a considerable amount of labour this work has been completed, and both the Rules and Dietaries have been approved, and been submitted to Parliament for the prescribed number of days required by statute. They were issued to the prisons on the 15th June, 1894. New Convict Rules.

III.—REGISTRATION OF CRIMINALS.

Identification
of Criminals.

46. In October, 1893, a Departmental Committee was appointed by the Home Secretary to inquire into the method of registering and identifying Habitual Criminals now in use in England.

In their interesting report, the Committee recommended that M. Bertillon's anthropometric system with Mr. Galton's finger print system should be adopted in the first instance as supplementary of the existing methods; and expressed a hope that when the system was to some extent established in England, it might speedily be extended to Scotland and Ireland.

The method proposed to be adopted is one which in theory ensures the identification of old offenders with scientific accuracy, but it would appear there are many difficulties to be overcome before its practical efficiency can be secured.

While at present we do not recommend that any departure should be made in the existing system in Ireland, we shall look forward with interest to the progress of the proposed experiment in England, and if it proves to be a success, we shall be prepared to take steps to introduce it into this country.

47. The full number of Criminals registered will be found in Table XXXIX. of the Appendix.

48. The usual Alphabetical Registry has been continued up to present date.

49. There has been an increase of 61 in the number of Habitual Criminals registered in the year 1893-4 as compared with the year before.

IV.—DEPARTMENTAL.

50. We have to regret the loss, during the past year, of the very valuable services of our late "Clerk in charge of accounts," Dr. Lamb, who had over 42 years public service, and who acted as Clerk in charge of Accounts in this department since the

passing of the Prisons Act of 1877. His duties during the commencement of this period were most onerous and important, as they involved not only the establishment of a new system of Finance throughout all Local Prisons, but also the taking over of all matters connected with Finance in regard to those Prisons, which entailed an amount of labour, precision, and assiduity, rarely to be found in one individual.

Dr. Lamb's retirement was caused by his having arrived at the age limit now fixed by Treasury for the retirement of Civil Servants, and we sincerely trust he may long enjoy the pension which he has so honourably and zealously earned.

His position in the Department has been filled by the appointment thereto of Mr. Richard Lewis, who has had many years experience of the working of the Finance Department, so that we have every confidence that he will prove a worthy successor to Dr. Lamb.

51. We have also to record the resignation of Mr. James Doody, the Agent for Discharged Convicts, who for many years filled that office with great advantage to the discharged prisoners and to the public. He was an efficient, zealous officer, and the Board regretted his having to resign owing to ill-health.

Mr. Michael Hand, retired Acting Inspector of the Dublin Metropolitan Police, has been appointed by Your Excellency to fill this office.

V.—APPENDIX.

52. We beg to refer to the Appendix for the several Tabular Returns, Official Reports, and Circulars, &c., usually submitted with our Annual Reports.

We have the honour to be,

Your Excellency's obedient servants,

CHARLES F. BOURKE, *Chairman.*

J. MULHALL, *Vice-Chairman.*

APPENDIX
TO
SIXTEENTH REPORT OF THE GENERAL
PRISONS BOARD.

PART I.

CIRCULARS AND CIRCULAR MEMORANDA.

Circular 403.

General Prisons Board, Dublin Castle,
15th May, 1893.

To the Governors (or other Officers in charge) of H. M. Prisons.

CONVICTS' PRIVATE CLOTHES.

The General Prisons Board desire that the following instructions, in reference to the private clothing of prisoners sentenced to penal servitude, be acted on for the future, in lieu of those contained in Circular Memo. of 14th April, 1890, and Circular 387 of 19th January, 1892.

Before the transfer of any such prisoners to a Convict Prison, they should be informed that their clothes may be sent to any relative or friend they desire to select, but that the Board (who supply all convicts with suitable clothing when leaving prison) cannot take charge of them. Should any convict decline to avail himself of this permission, a record should be made of the fact, in the private clothing book and on the convict's penal record, and the clothes, if considered by the Governor worthless, should be brought before the next Board of Survey, and when condemned, should be dealt with in the usual manner; but should any of the clothes be serviceable they may be retained, to be disposed of as the Board may direct. (5710.)

By order,

S. H. DOUGLAS, Secretary.

General Prisons Board, Dublin Castle,
22nd September, 1893.

To the Governors (or other Officers in charge) of H. M. Prisons.

HABITUAL CRIMINALS.

Form J having been revised so as to provide for a statement of the exact period from a former sentence of Penal Servitude which the Convict concerned, if on licence, will be liable to undergo, in the event of his conviction at Assizes or Quarter Sessions; I am directed to request that you will take care that the information contained in this form is brought under the notice of the Judge in each such case.

By order,

J. WHITE, *pro* Secretary.

(Form J, as amended).

General Prisons Board, Dublin Castle.

_____, 189 .

SIR,—The attached particulars of _____ have been compared with the Books of this Office, and are correct. In the event of h. being found guilty of the present charge, I have to request that the notice of the Judge may be particularly called to the circumstances of h. being an "Habitual Offender," with the view of h. receiving a sentence proportionate to h. perseverance in pursuing a course of crime.

This Convict, if convicted, will, in addition to the sentence awarded by the Court, have to serve a Remission of — from a former sentence of penal servitude, but by industry and good conduct he may earn a remission not exceeding one quarter of this term.

Please to notify the result of the Trial to this Office, and return the Enclosure at the same time.

I am, sir, your obedient servant,

The Governor, Prison, —————

*If the convict is not on Licence or is not to be tried at Assizes or Quarter Sessions, this paragraph is to be struck out.

411.

General Prisons Board, Dublin Castle,
5th October, 1893.

INSTRUCTION OF OFFICERS.

MEMO.

I should wish the Governors of the larger Prisons, also the Superintendents and Matrons of female prisons, to assemble once a week after lock up the probation officers, and point out to them their defects in the management of prisoners, and the performance of their duties generally. Also to question them and advise them in the proper mode of treating prisoners and in doing their duty efficiently.

This duty will not occupy more than ten or fifteen minutes.

(Signed),

CHARLES F. BOURKE.

412.

General Prisons Board, Dublin Castle,
2nd November, 1893.

The Governors (or other Officers in charge) of the several larger Prisons.

NIGHT GUARD.

The General Prisons Board desire that in future the following direction may be observed in respect to the hours of duty of the night guard :—

Male Prisons.—Officers for night guard to go off duty at 2 p.m., resume duty in time for night guard, and remain on duty till unlock next morning, then go off till 2 p.m. same day.

Female Prisons.—Officers for night guard to go off duty at 2 p.m., to resume duty in time for night guard, and remain on duty till unlock the next morning, then go off till 6.30 p.m.

Please report monthly how the system works.

By order,

S. H. DOUGLAS, Secretary.

414.

14154-93.

GENERAL ORDER.

General Prisons Board, Dublin Castle,
30th November, 1893.

To the GOVERNORS of H.M. Prisons.

MEDICAL ATTENDANCE.

Attention having been drawn to the omission of Governors of Prisons in certain cases to call in the Medical Officer at a sufficiently early period after a prisoner had shown serious symptoms of illness—mental or physical, I am directed by the General Prisons Board to impress upon you that you should in no case scruple to call in the Medical Officer at any hour of the day or night when a prisoner in your custody appears to you to be in need of medical aid, either on committal or afterwards.

In each such special case you will please note in your Journal the hour at which the messenger is sent for the Medical Officer.

In the event of the Medical Officer not being at home on any such occasion, the messenger should have directions to inquire where he may be found, and proceed in search of him, if within reasonable distance.

These directions apply equally to the Medical Officer's substitute in the case of his having appointed one.

By order,

S. H. DOUGLAS, Secretary.

General Prisons Board, Dublin Castle,
9th January, 1894.

To the Governors (or other Officers in charge) of H.M. Prisons.

OFFICERS' DRESS.

I am directed by the General Prisons Board to forward to you the subjoined Circular (No. 418) in reference to the conditions under which subordinate Prison Officers may in future, if they wish, go out in plain clothes when off duty, and to inform you that this Circular is substituted for that of the 8th April, 1889.

A book such as that referred to in the Circular will be sent you in due course. Meantime a blank book can be utilized for this purpose.—(164).

CIRCULAR No. 418.

9th January, 1894.

In future when a subordinate Prison Officer wishes to go out in plain clothes, when off duty, it will be sufficient if, before leaving the prison, he enters his name in a book to be kept for this purpose. The Governors are empowered to temporarily suspend this privilege in the case of any Officer whose conduct has not been satisfactory, or who does not pay sufficient regard to the taking of rest before going on duty, or where any other special and exceptional circumstances seem to justify or require it. Should an Officer, being subjected to this temporary suspension, desire to wear plain clothes when off duty, he must formally apply to the Governors for leave to do so. All Officers wearing plain clothes must be respectably attired.

By Order,

S. H. DOUGLAS, Secretary.

CIRCULAR No. 420.

General Prisons Board, Dublin Castle,
27th February, 1891.To the Governors (or other Officers in charge) of Her Majesty's
Local Prisons

SOUP.

I am directed to request that in future the soup for local prisoners on class 2 diet may be prepared according to the instructions forwarded herewith (2407.)

By Order,
S. H. DOUGLAS, Secretary.

INSTRUCTIONS for the PREPARATION of SOUP.

Day before that on which the soup is served.

The meat is to be separated from the bones, and the bones are to be broken or sawn into small pieces early on the day before that on which the soup is to be served up. The bones are then to be placed in water and cooked for 9 hours at a temperature not exceeding 210°F. They are afterwards to be allowed to remain in the copper or caldron all night. The cold fat is not to be removed.

Before 11 a.m. the meat is to be cut into pieces one cubic inch in size and put to soak in cold water for 30 minutes. The liquor is then to be brought up to, and maintained at a temperature not exceeding 165°F. for four hours. The cooked meat and the liquor may remain in the copper until transferred to the bone liquor.

The quantity of water required is one imperial pint to the pound, and this quantity of water is to be divided between the bones and the meat.

The peas must be soaked from 12 to 24 hours, according to age and condition, in a quantity of water sufficient to supply absorption. The quantity of water absorbed by 35 pounds of peas will usually be about two gallons and a half. Two drachms of washing soda are to be added to each gallon of water.

Day on which the soup is served.

Before 8.30 a.m. the bones are to be placed on a wooden tray; shreds of meat adhering to them are to be removed, and the bones are then to be placed on one side. The soup meat is now to be taken out of its liquor with a strainer, and placed on the same tray. The whole of the meat, after it has been chopped to mince-meat, is then to be placed in the meat liquor, and is to remain there until 10.45 a.m.

At 8.30 a.m. add the peas, and the water in which they were soaked, to the bone liquor; also add the onions, and the mixed fresh vegetables. Then turn on steam. Stir the contents of the copper frequently for a quarter of a minute, the lid being kept closed during the intervals.

By 9 a.m. the liquor in the copper will be raised to boiling point, and is to be maintained at that point for 1½ hours.

At 10.45 a.m. turn off steam, and stir well for 15 minutes; at 11 a.m. add the soup meat, with its liquor, and make up the required quantity with hot water, if necessary. Next add the pepper and salt, stir all together for one minute; then close lid of copper till time to serve up.

N.B.—The coppers are to be kept closed as much as possible during cooking.

In order that each ration may contain its proper proportion of the constituents of the soup, the contents of the copper must be frequently stirred while serving up.

"Fresh vegetables" are leeks, parsnips, turnips, turnip tops, carrots, cabbage, and other succulent vegetables. Care must be taken that the carrots and parsnips are cut into small pieces before cooking. Cabbage and turnip tops should be chopped small and boiled apart from the bone liquor, the water in which they have been boiled being thrown away.

General Prisons Board, Dublin Castle,
10th March, 1894.

Circular No. 421.

The Governors (or other Officers in charge) of Female Prisons.

I am desired by the General Prisons Board to inform you that any breakages or damages to the articles of furniture supplied by the Board to the Quarters of Matrons and Assistant Matrons, other than those resulting from fair wear and tear, must be made good by the Officers concerned.

Boards of Survey must take stock of all such articles and report any discrepancies.

Any articles of furniture, the private property of the Officers, should be removed from the Prison as soon as possible after the Quarters are supplied with similar articles by the Board.

By Order,

E. METCALFE, Supl. of Stores.

GOVERNOR'S REPORT.

H. M. Prison, Maryborough,
30th April, 1894.

SIR,—I have the honour to submit my Report on the condition of this prison, together with the usual statistics for year ended 31st of March, 1894.

As a general rule the conduct of the subordinate officers has been very satisfactory, and they have performed their duties efficiently. Only one case of a serious dereliction of duty having occurred during the year.

There were seventy-one convicts in custody on 1st April, 1893; there were received from Mountjoy Prison during the year thirty-eight. Released on licence, 31; on commutation of sentence, 1; removed back to Mountjoy Prison, 5; and one died, leaving 71 in custody on 31st March, 1894.

There were only five convicts in the Intermediate Class on 1st April, 1893, but there were fourteen on 31st March, 1894.

They have been employed outside the prison cultivating the land, producing a sufficient supply of vegetables for the use of the prison for the entire year, potatoes for eleven weeks, and vegetables have been sold to warders and their families. Two new cottages have been occupied on 1st November by two married officers. A photography house has been built. A smoke shaft at laundry, and the usual repairs to buildings regularly attended to.

The conduct of the prisoners in this class has been exemplary.

The invalid prisoners when fit for work have been cooking, tailoring, cleaning prison, and tilling garden inside the prison walls. Their conduct has been generally very good, misconduct cases being slight and few in number, and in only one case was it found necessary to use temporary restraint.

There have been no escapes, attempts at escape, or suicides during the year.

The Chaplains have been zealous and attentive.

The Medical Officers have been most diligent in their care of the sick and complaining, whilst providing for the maintenance of the health of their patients, yet the use of "extras" are kept within the limits of moderation and economy.

Morning and evening schools have been conducted as usual with the most satisfactory results, the progress made by many of the convicts of mature years being quite remarkable. The library is largely availed of, and the books provided annually are very much appreciated.

A stream at east side of the prison, which was considered a source of danger to health, has been covered in by a concrete arch, 355 feet in length, being the line of contact with the prison grounds.

I certify that the Rules laid down for the government of the prison have been complied with, to the best of my knowledge and belief, except in such cases as have been specially reported to the Board

The Visiting Committee visited the prison on 4th and 17th April, 10th May, 14th June, 12th July, 9th August, 13th September, 11th October, 8th November, 1893; and on 10th January, 14th February, and 14th March, 1894.

Chaplain's
Report.

SIR,—The Church of Ireland Services in H. M.'s Prison, Maryborough, have during the last twelve months been regularly attended by the Protestant prisoners of all denominations. They appeared attentive and interested in the services. With a few exceptions they seemed glad to be visited in their cells; some show plainly that they do not care to be spoken to personally by a clergyman on their religious state. During the year six Protestants attended the school. There are three attending at present. I received, in the discharge of my duties as Chaplain, every possible assistance from all the Intern Officers of the prison.

I have the honour to be, Sir,

Your obedient servant,

EDMD. L. EVES.

The Chairman, General Prisons Board.

ROMAN CATHOLIC CHAPLAIN'S REPORT.

Maryborough,

Roman
Catholic
Chaplain's
Report.

SIR,—There is nothing very particular to note about our Convict Prison here, during the past year. The demeanour of the prisoners at Mass is edifying, and a large number of them approach the Sacraments frequently.

Two Irish-speaking priests visited the Irish-speaking convicts during the last half year of '94. I regret to say the convicts in question did not set much value in the visits of these clergymen, although they came from a distance at much expense and inconvenience. I may remark that these said convicts made frequent complaints to the Visiting Justices and to others on the subject. I have been informed that many of the prisoners are studious in reading books out of the library and attentive at their school duties. The Governor and the other Officers of the prison, with their usual courtesy, give every assistance to the Chaplains in the discharge of their duties.

I have the honour to remain yours faithfully,

A. PHILLAN, P.P.

MEDICAL OFFICERS' REPORT.

Maryborough Prison,
April 28th, 1894.

SIR,—We have the honour to submit our annual report bearing on the health of the subordinate officers and prisoners and the sanitary state, with statistics relative thereto, of Maryborough Prison during the year ended 31st March, 1894.

A number of 67 convicts has been under medical and hospital care for the diseases as set forth in Nosological Form 8. No death has been recorded among the invalid prisoners, but one case of mortality had occurred in the Intermediate class of convicts notwithstanding an operation for strangulated inguinal hernia.

1,175 convicts had been treated as extern patients for light ailments.

There has been no case demanding transference to a lunatic asylum, although some prisoners of doubtful mental deficiency had been subjects of medical care.

Of the subordinate members of the staff 17 had been temporarily unfitted for duty through indisposition. Each case had been of an ordinary type and of short duration.

As to the families of the staff it is sufficient to refer generally to the fact that their medical requirements bear a full proportion to what is usually expected among persons similarly circumstanced.

The water supply from deep well has been abundant and free from pollution.

The different prisons have been apparently free from sanitary defect, and the cellular accommodation equally satisfactory.

The food and raiment of the convicts call for no special remarks.

In conclusion we add with satisfaction that we have been greatly aided in the performance of our duties, often difficult, by the courteous attention of the Governor.

We have the honour to be, Sir, your obedient servants,

MAURICE O'CONNELL,

Surgeon, &c., Assistant Medical Officer and Apothecary.

Visiting Medical Officer.

MOUNTJOY CONVICT PRISON.

GOVERNOR'S REPORT.

Mountjoy Prison,
May, 1894.

SIR,—I have the honour to report on the Convict portion of the Mountjoy Prisons, for the year ended 31st March, 1894, and to forward the usual statistical returns.

The subordinate officers have been generally well conducted and attentive to their duties during the year, the changes on the staff have not been numerous, one warder died, two resigned, and two were dismissed. The chief and principal warders were attentive and zealous in the performance of their duties.

The convicts have, with few exceptions, been generally well conducted and industrious, those placed at trades have, as a rule, learned very quickly and taken an interest in their work; punishments for prison offences or breaches of rule have not been numerous, and were chiefly confined to convicts of the corner-boy class, who have never exercised any self-control, and who seem almost incapable of doing so. Very many convicts serve their sentences without having had a complaint against them.

Mountjoy
County
Prison,
—
Governor's
Report.

There was no escape, or attempt to escape, although convicts were constantly employed outside the prison.

The buildings both within and outside the prison walls have been kept in good repair by convict labour.

Considerable progress has been made during the year in erecting twenty-three additional houses for married wardens. The brick walls and chimneys are completed, the wood-work of roof fixed, and slating commenced; the workmanship is good, although done by unskilled men, who had to be taught everything as the work progressed, but they took much interest in it and learned rapidly.

A party of sixteen convicts, consisting of six bricklayers, four carpenters, and six labourers, was removed to Cork Male Prison on the 26th February last, to execute some building works there; the bricklayers and carpenters were trained to work at these trades at Mountjoy.

The school arrangements remain unchanged, work well, and the school records show satisfactory results; cellular instruction is given every forenoon by two teachers to the convicts in probation during the first nine months of their sentences, and afterwards those who are unable to read, write, and work simple arithmetical calculations are assembled in two schools and taught in classes every evening after working hours. I regret having to report the death, in August, 1893, of the senior schoolmaster, Mr. T. Ryan, who was an officer of much experience and ability as a teacher; his successor has been diligent and attentive and has given satisfaction. The schoolmasters also act as librarians, and change books for the convicts daily during the dinner hour. One shilling and threepence per prisoner is allowed annually for the purchase of additional books, and as the books are rebound and repaired by convict labour at a very trivial expense, and not reissued until put in good condition, the library has become varied and extensive, and is much appreciated by the convicts.

The chaplains, or their approved substitutes, have been most regular in their attendances, and in the performance of the different religious services during the year.

I certify that, to the best of my knowledge and belief, the rules laid down for the government of the prison have been adhered to except in such instances as have been brought to the notice of the General Prisons Board.

I have the honour to be, Sir, your most obedient servant,

GEO. SHEEHAN, Governor.

PROTESTANT EPISCOPALIAN CHAPLAIN'S REPORT.

H. M. Prison, Mountjoy,
Dublin, May 28, 1894.

SIR,—In submitting my annual report I can speak favourably of the general conduct of the prisoners committed to my care, of their deportment during Divine service, and their attention during religious instruction on week days in Church.

Independent of the week-day services, I have an average attendance of twenty-five warders at Church on Sundays.

During the past twelve months we were able to send one of the convicts—a young man, and formerly a soldier—to Australia; and another, more advanced in years, to Canada, at his own earnest entreaty.

The hospital erected in 1887 by the General Prisons Board I regard as one of the most valuable departments in Mountjoy Prison, well worked, and a real help to me in the discharge of my duties as Chaplain. Many cases requiring frequent and continued medical treatment—one critical illness in particular during last year—would, I am convinced, have terminated fatally if the patients had not found themselves in the ward of an infirmary, under assiduous trained nursing, and the regular supervision of the physician.

The change of the library books into the commodious room where they are now methodically ranged on shelves provided for the purpose has proved a most admirable arrangement.

Let me notice the daily school. Some years ago I recommended one of the prisoners, entirely illiterate, to be diligent under the instruction of the schoolmasters, the result being that he now reads and writes, and has a fair knowledge of elementary arithmetic. We were sorry to lose, by death, the service of Mr. Ryan, but his place has been well supplied, and I desire to speak of the daily school in terms of approbation.

I return thanks to the staff of the gaol for ready assistance and co-operation, and can testify that, under the unremitting exertions of George S. Sheehan, Esq., the Governor, everything is carried out that can contribute towards the maintenance of internal discipline and proper management.

I have the honour, Sir, to remain your obedient servant,

JOHN H. MACMAHON, M.A., LL.D.,
Protestant Chaplain.

ROMAN CATHOLIC CHAPLAIN'S REPORT.

Mountjoy Prison, May, 1894.

SIR,—In submitting our annual report to the General Prisons Board we feel pleasure in bearing testimony to the satisfactory condition of the prisoners committed to our care during the year ended March, 1894.

Their general conduct was good, and their demeanour in the Chapel was everything that could be desired. The vast majority of them gladly availed themselves of the opportunities afforded them of

frequenting the Sacraments, and they approached these and attended to their other religious duties with exemplary devotion.

We cannot speak too highly of the kindness which we invariably received at the hands of the Governor and the other officers of the prison whilst discharging our various religious duties, for which we beg to tender to them our sincere thanks.

Presby-

Chaplain's
Report.

GENTLEMEN,—In presenting the Report for the year ended 31st March last, I have nothing of special importance to mention. The attention of the prisoners to instruction was all that could be desired; and their behaviour at the religious services has been respectful and reverent. Their general record of conduct has been good throughout the year. None of them has had to be dealt with for any serious offence. During the year three of them were removed to Maryborough, previous to the expiration of their sentence; one, a young fellow under twenty, was, by the authority of His Excellency, allowed out on licence, and one died. I saw the latter, once and frequently twice a day, during the last days of his illness. I always found him receiving all the comforts and attention the prison could afford.

Mountjoy Convict Prison,

Medical
Officer's
Report.

Sir,—I have the honour to submit the annual report on the state of health of the officers and prisoners, and on the sanitary condition of this prison for the year ended 31st March last.

There were 80 warders admitted into hospital during the year. No death occurred in this hospital. One warder suffering from fever, with threatened cerebral complications, was removed from the prison hospital to the Hardwick Hospital, where he died from a cerebral abscess. The senior schoolmaster died in his quarters from pneumonia and hæmorrhagic purpura.

During the year there were 323 convicts admitted into hospital. This large number of admissions—the highest of any year since the closing of Spike Island Prison—was due to the prevalence of influenza, bronchitis, and febricula. Of those admitted into hospital—three were discharged from prison on medical grounds, four were removed to the

Of convicts—not patients in hospital—seven were removed to the invalid prison, one was transferred to the Criminal Lunatic Asylum, and one died suddenly of fatty degeneration of the heart.

The sanitary condition of this prison during the year was satisfactory.

SUPERINTENDENT'S REPORT.

H. M. Prison, Grangegorman,

20th May, 1894.

SIR,—I have the honour to submit my annual report on the convict portion of Grangegorman Prison, with statistical returns.

The conduct of the subordinate officers has been good, and they discharged their duties satisfactorily.

The conduct of the convicts has been very good, most of them appear to be desirous of complying with the rules, and of giving satisfaction in the performance of the work allotted to them.

The convicts are principally employed in laundry work, knitting, and sewing, also whitewashing and painting. Three have been constantly employed in the kitchen, cooking for convict and local prisoners.

The school has been worked satisfactorily, the teacher being zealous and painstaking.

I certify that the rules laid down for the government of the prison have been adhered to, except in such cases as have been brought to the notice of the Prisons Board.

I have the honour to be, Sir,

Your obedient servant,

SIR,—There were four convicts under my charge on March 31st, one having been sent to Dundrum Asylum during the year. Three attend school regularly, one of whom has made marked progress; another receives instruction in her cell, but is incapable of learning.

All attend the Chapel Services and appear to value the ministrations of religion.

The officers are uniformly efficient and attentive to their duties, and I believe them to be kind and considerate to the prisoners under their charge.

The moral and religious state of the prisoners was on the whole good. Yet, though the prisoners, with four or five exceptions, attended their religious duties regularly, I fear not more than one-third of the number will be able to persevere in their good intentions when discharged.

The schools have been admirably conducted by both teachers, and a good proportion of the women-pupils made great progress in reading, writing, and the simple rules of Arithmetic.
